PROFESSIONAL SUMMARY

Performance marketing and product growth leader with 5+ years of experience managing **Rs. 100Cr+ annual media budgets** across Meta, Google, TikTok, and LinkedIn. Proven ability to scale user acquisition across **25+ international markets** and 10+ industries. Strong technical background in attribution, server-side tracking, and experimentation, with a track record of building growth teams from scratch and advising enterprise brands on full-funnel media strategy.

EXPERIENCE

Customer Success Strategist – Growth & Performance

Oct 2024 – Present

Pixis.ai

Bengaluru, India

- Led strategic growth consulting for a portfolio of enterprise advertisers across APAC, EMEA, and India, managing **Rs. 1–10Cr monthly media investments** and advising on media planning, measurement, and budget allocation.
- Collaborate with Product, AI, and Engineering teams to run **technical growth audits** — including GTM validation, CAPI health checks, and pixel diagnostics — to ensure accurate tracking and improve algorithmic bidding models.
- Drove major efficiency gains across enterprise accounts: reduced **Cost Per Booking by 35% QoQ** for Celebrity Cruises, cut franchise acquisition costs by **25%** for EuroKids, and sustained **ROAS of 4+** for Ketto.
- Partnered with creative teams to develop and test **400+ ad variations** for UTI Mutual Fund; worked closely with Singtel and Singapore Airlines to launch AI-driven advertising pilots that scaled revenue in new markets.
- Managed high-volume acquisition campaigns for **Swiggy Food and Swiggy Instamart**, coordinating a team of three specialists to maintain delivery quality and scale daily spend targets.

Growth Product Manager

Dec 2023 – Sep 2024

FlexifyMe

Pune, India

- Led end-to-end marketing operations, driving **45% revenue growth** through integrated paid acquisition and lifecycle campaigns; scaled budget by 40% while reducing **CAC by 30%** and boosting acquisition volume by **45%**.
- Scaled conversational commerce using **Click-to-WhatsApp (CTWA) ads and Gupshup** integrations, driving high-intent lead generation and significantly improving lead-to-appointment conversion rates.
- Directed a customer transformation video campaign generating **50+ premium paid acquisitions** (Avg. Ticket: **Rs. 35,000**); expanded channels by launching offline clinic initiatives and corporate wellness B2B partnerships.
- Ran Unbounce-powered landing page experiments and mobile-web journey optimizations, aggressively cutting **CPL by 10%** and **CAC by 5%** within the first 15 days of onboarding.

Growth Product Manager

Mar 2022 – Nov 2023

BrightChamps

Bengaluru, India

- Joined as the **first performance marketer and built the growth function from the ground up**, hiring a team of 5 and working directly with the CEO to scale global acquisition across **25+ international markets**.
- Managed **Rs. 100Cr+ annual media budgets** and owned global user acquisition, onboarding, and activation funnels.
- Led the implementation of Meta Conversions API and GTM infrastructure end-to-end, driving a **2.5x increase in demo sign-ups** while reducing completion costs by **57%**.
- Improved landing page conversion rates from **6% to 8%** through structured multivariate testing on Unbounce and fixed critical mobile funnel drop-offs to lift paid conversions by **15%**.

Growth Manager

Jan 2021 – Mar 2022

BrightChamps

Bengaluru, India

- Pioneered early market-entry campaigns across **5 new countries**, scaling social communities from **zero to 150K+ users** and driving MoM customer acquisition through geo-specific targeting.
- Delivered a **2.5x ROAS** in FY21 and expanded U.S. sales conversion rates from **10% to 15%** by redesigning acquisition funnels, earning a fast-track promotion to Growth Product Manager.

EXPERIMENTATION & MEASUREMENT

A/B & Multivariate Testing: Designed and executed **50+ A/B and MVT experiments** across landing pages, ad creatives, bidding strategies, and conversion funnels on Unbounce and VWO — lifting conversion rates by up to 20%.

Tracking & Measurement: Implemented server-side tracking via Meta Conversions API (CAPI) and Google Offline Conversions to feed privacy-compliant downstream data into ad networks, optimizing bidding performance.

Attribution & Analytics: Built custom multi-touch attribution dashboards in **GA4, Looker Studio, and Tableau**; mapped UTM taxonomies and GTM data layers to track the full user journey from impression to closed revenue.

GROWTH, ANALYTICS & MARTECH

Growth Platforms: Meta Ads, Google Ads (Search, Display, PMax, App), TikTok Ads, LinkedIn Ads

Analytics & Data: SQL, GA4, Looker Studio, Tableau, Cohort Analysis, Funnel Diagnostics, Multi-Touch Attribution

Martech & Tracking: Meta CAPI, GTM, UTM Taxonomies, Gupshup (CTWA Ads), Server-Side Conversions

AI & Automation: Pixis Prism, AI Bidding Models, Marketing Automation, GenAI Optimization (ChatGPT/Gemini)
